

Dr. Ron Perkins is an orthodontist who has treated airways for 40 years. He pioneered treating patients and not changing the occlusion by creating TMJ balanced oral appliance which also treats headaches. In the past 12 years he developed effective treatment techniques for patients with various sleep disorders, TMJ and headaches. He is very passionate about these topics and loves sharing his knowledge with the general public and dental professionals.

PUBLIC EDUCATION COURSES

Dr. Ronald Perkins lectures to community and professional organizations to educate the public about the dangers of sleep disorders. If you would like Dr. Perkins to speak to your group, please submit your request [HERE](#).

DENTAL CE COURSES
